Company Profile

Meteory®

Fire Extinguishers

Meteory is an Egyptian based manufacturer of firefighting products and an integrated solutions provider.

An expertise of 45 years. The company roots go back to the 70s of the 20th century. In 1980, Meteory became a specialized distributor \ importer of products from Italy and Germany. By 1986 the company built its factory with state of the art assembly lines to manufacture and market fire extinguishers to cover the increasing demand in the Egyptian Market.

Continuous Improvement. Meteory acquired technology and international experience and launched it's flagship laboratory with focus on the stringiest quality measures. This led to that Meteory now is an Egyptian standards and ISO 9001 certified with ongoing efforts to meet and exceed more international quality standards and certificates.

Expansion The company became one of the top 3 in the market. A new goal was set with adding new products and solutions to become a regional integrated firefighting solutions provider. Meteory's lineup now covers FOAM, AEROSOL, WATER SPRAY, SPRINKLER, CO2, FM 200 and all types of fire cabinets.

Network. Meteory has you covered. Our sales and after sales network covers the entire country. We service everything we sell including fire extinguishers, fire hose, and fire apparatus. Check out our after sales department to find out more about the services we provide. No order is too small or large for us to handle. We have a dedicated department to help with your large or complex purchases. You can call, email, fax us or visit our website anytime for pricing or service on any size order. Feel free to stop in and visit our showrooms. Our customer service staff will be glad to meet you and discuss all your equipment needs. If you can't make it in for a visit, give our outside sales staff a call and we will be happy to stop by and see you and your department.

Meteory®

Fire Extinguishers

Our Vision

"We work hard every day to make you safe. To create a better and safer tomorrow."

Our mission

"Contionous Improvement with total solution convergence for your peace of mind."

What We Do

Planning & Strategy

Analyzing the clients' requirements with emphasis on financial and technical project description. Defining codes & standards of the project.

Design

It shall start after collecting all the clients' requirements as per local & international codes. Drawings and the bill of materials shall be as per as the firefighting codes.

Progress

preparing the materials and the products needed for the installation.

Delivery

Finishing and preparing the products needed to be delivered to the site.

Quality Assurance

Upon Delivering the products and installing them, Testing is conducted needed for checking the safety and meeting quality standards.

After-sale

Collecting all clients comments where applicable and addressing them promptly, Offering after sales maintenance contracts for maximum ROI. Checking and update the equipment data sheets as per latest codes and authorities' updates. Training client's technical staff on the latest products manuals, Operation manual updates.

Meteory®

Fire Extinguishers

Our Product

Meteory®

Fire Extinguishers

Meteory Dry Chemical Powder Fire Exnguishers. are suitable for protecing warehouses, residential buildings, and vehicles.

Dry Powder Extinguisher Stored Pressure

Capacities 1, 2, 3, 6, 9 & 12 KG

Manufactured and tested according to Egyptian standard specifications No: 8442/2021

ISO 9001 certified

Meteory Carbon Dioxide fire extinguisher is effective in fighting flammable liquids and electric fires.

CO2 Fire Extinguisher

Capacities 2, 3, 6, 10, 20, 30 & 50 KG

Designed, manufactured and tested according to Egyptian standard specifications No, 734 /2015

(2, 6, 9) Kg

Designed, manufactured and tested according to Egyptian standard specifications No, 2007 /6115

(10, 20, 30, 45) Kg

ISO 9001 certified

Meteory®

Fire Extinguishers

Automatic Dry Powder

Capacities 6, 9 & 12 KG

Meteory Automatic Dry Chemical Fire Extinguisher.

Designed, Manufactured and tested according to

Egyptian Standard Specification No 5680/2013

Stored Pressure Fire Extinguisher and Multipurpose powder.

ISO 9001 certified

Dry Powder External Cartridge

Capacities 6, 9 & 12 KG

Designed, manufactured and tested according

to Egyptian standard specifications No, 734 /2013

ISO 9001 certified

Dry Powder External Cartridge

Capacities 30, 50, 75 & 100 KG

Manufactured and tested according to

Egyptian standard specifications No: 1494 of 2007

ISO 9001 certified

Meteory®

Fire Extinguishers

Meteory Foam fire extinguisher is effective in fighting flammable and combustible liquids and gases.

Foam Fire Extinguisher

Capacities 9, 30 & 50, 75 & 100 KG

Designed, manufactured and tested according to Egyptian standard specifications No, 4105 /2007 (9) Liter

Designed, manufactured and tested according to Egyptian standard specifications No, 1686 /2007 (30-50-75-100) Liter

ISO 9001 certified

Meteory Fire Sense

Capacities (2, 3, 6, 10 and 45) kg.

Fire sens powder

Capacities (6 and 12)kg

Designed, manufactured and tested according to Egyptian specifications No, 735 /2015

(2, 3, 6) Kg.

Designed, manufactured and tested according to Egyptian standard specifications No, 6115/2007

(10, 45) Kg.

ISO 9001 certified.

Meteory®

Fire Extinguishers

Fire Cabinet are fabricated from Carbon steel material coated with Corrosion resistant coating RAL3000.

Meteory cabinets are designed in accordance with BSEN671-1 standard.

The cabinet has two inlet holes (upper & lower) for water feeding pipes sealed with polymer or rubber seals. The cabinet door hinges enables it to swing up to 180°, in addition to corrosion resistant type snap-in hinges, European made.

Single Fire Cabinet

A- Fire Hose Cabinet.

Meteory[®]

Fire Pumps

End Suction Fire Pumps

fire pumps with diesel engine or electric motor driven, single-stage End-Suction pump. These pumps are typically used in fire-fighting applications for supplying water to fire hose reels, fire hydrants or sprinkler systems.

Horizontal Split Case Fire Pumps

fire pumps with diesel engine or electric motor driven, horizontal split case pump. These pumps are typically used in fire-fighting applications for supplying water to fire hose reels, fire hydrants or sprinkler systems.

Vertical multistage Jockey Pumps

Jockey Pump are small, motor driven pumps used in conjunction with main fire pumps to compensate for minor leaks in the fire protection system the automatically maintain stand-by pressure. This reduces wear on the main pump and controller caused by unnecessary, frequent operation. Jockey Pump are available with their control panels (Controllers). Complete jockey pump sets are available

Meteory®

Fire Extinguishers

Fire Hose Reel EN671 Approved

METEORY provides a wide Variety of fire hose reels designed to provide a fast, efficient and steady flow of water to deal with fire. Fire hose reel has been a mainstay of fire fighting for decades. The hose reels are supplied with either a manual or an automatic valve depending on the type of application scenario needed.

Fire fighting hoses with high quality for the most demanding situations

Standard Plural :

15, 20, 30, 60m in bore
size 38/65mm (1 ½" & 2 ½")

Technical Data:

	1 ½"	2 ½"
Working pressure	≤ 16 bar	≤ 17 bar
Test Pressure	≤ 25 bar	≤ 22 bar
Bursting pressure	≤ 50 bar	≤ 50 bar
Weight	225 gm	520 gm
