Features

- Meteory Dry Chemical Powder Fire Extinguishers with External cartridges are suitable for protecting hotels, cinemas, Theaters, Libraries, warehouses, residential buildings, and vehicles.
- Designed with body thickness 2 mm
- top and bottom thickness 2.5 mm.
- Equipped with safety relief valves.
- Delivered with its Special bracket.
- Aplacaole for E class up to 1000 V.
- Equipped with a high-pressure external cartridge filled with Nitrogen.
- The device is equipped with a rubber hose that can withstand high pressures and is finished with a pistol for easy directing of the powder.
- Allows intermittent and repeated operation.
- Ease of operation and handling.
- High-Quality Coating.

Technical Specification

Capacity	6, 9, & 12 Kg.
Model	Model: ME 6, ME 9 & ME 12
Extinguishing Agent	Multipurpose Powder
Working Temperature Range	-20 °C to +70 °C
Cylinder Material	Cold drawn steel
Working Pressure	17.5 bar
Testing Pressure	35 bar
Bursting Pressure Min	70 bar
Valve Material	Brass valve
Discharge Fitting	(50:60) cm long high pressure reinforced rubber hose.
Paint On The Outside	Electrostatic Painted (RAL 3000)
Period of Warranty	2 Years
Coverage of the Warranty	Against material failure or production defects
