## Features

- Designed as seamless cylinder for all capacities.
- Designed as a portable fire extinguisher for 2, 3 & 6 kg.
- Designed as a trolley fire extinguisher for 10, (2\*10) & 45 kg.
- Equipped with a brass valve.
- Equipped with a plastic nozzle for 2 & 3 kg.
- Equipped with a high-pressure hose and a plastic nozzle for 6, 10, (2\*10) & 45 kg.
- Allows intermittent and repeated operation.
- Ease of operation and handling.
- High-Quality electrostatic coating.

## Technical Specification

<b>Capacity</b>	2,3,6, 10, (2*6), (2*10) & 45 kg.
<b>Model</b>	CO2 2, CO2 3, CO2 6, CO2 10, CO2 (2*6), CO2 (2*10) & CO2 45
<b>Extinguishing Agent</b>	CO2
<b>Working Temperature Range</b>	-20 °C to 70 °C
<b>Cylinder Material</b>	Seamless steel cylinder
<b>Working Pressure</b>	100 bar
<b>Testing Pressure</b>	200 bar
<b>Bursting Pressure Min.</b>	400 bar
<b>Valve Material</b>	Brass valve with overpressure safety valve
<b>Paint Finish Surface</b>	Electro-static painted
<b>Period of Warranty</b>	2 Years
<b>Coverage of the Warranty</b>	Against material failure or production defects
